<p>Now I am seriously injured with my arm because of the accident about ten days ago. It occurred while I was riding my bicycle. Then my left elbow was bent to the opposite side of the ordinary region. Each bone was not broken, but the joint was broken.</p> <p>For about a month my activity will have to be at very low level, and so I will not write anything here.</p> <p>Now I want to write about the coordinate-system of the non-relativistic classical mechanics, but I can not compose good enough English sentences yet, and so I must learn how to compose English sentences more.</p>

<p>I installed some translation software in my PC plain ahead. However, when I attempted to use it actually, it didn't get the translated sentence that the satisfaction goes. Therefore, yesterday, I added the technical term of the mathematical principle and the physics to the translation software. To that, money was taken. Now, using the software, it translates a posting sentence in the Japanese edition at this site into English and it plans to carry it on this site. This posting sentence, too, is the one which was made, depending on the software.</p>

<p>From:  SourceCodeOf_HumanGenome <span style="float: right;">Sent: 11/3/2007 5:00 PM</span></p> <p>Now I am learning how to compose English sentences from a literature on pure mathematics.</p> <p>I plan to collect as many correct sentences as possible from the literature.</p> <p>I am saving the sentences with appropriate interpretations as text-files.</p> <p>By doing so, I will be able to use them as the most customized dictionary for English composition later.</p> <p>What I need most when I compose English sentences are enough amount of grammatically correct sample sentences.</p> <p>When I finish making the dictionary, I might start writing in this site regularly.</p>

<p>From:  SourceCodeOf_HumanGenome <span style="float: right;">Sent: 5/26/2008 7:48 PM</span></p> <p>The portion of the literature mentioned at Message 9 from which sample sentences have already taken has amounted to thirty pages.</p> <p>I think that that is enough for me to start posting messages here. So I started posting messages here today.</p>

<p>From:  SourceCodeOf_HumanGenome <span style="float: right;">Sent: 7/25/2008 6:55 PM</span></p> <p>When I searched with the key word 'grammatical physics', I found the following material.</p> <p><a href="http://www.conceptualphysics.com/taxi.html">http://www.conceptualphysics.com/taxi.html</a></p> <p>By reading it, I saw that it is not concerned with grammatical physics, but it contained interesting comments with wit.</p>
